County Department of Airports.

BBQ & Fly-in

At Conway Airport

Contact Bill Utt at 843-240-7888

PLEASE NOTE THE CHANGE FROM GREEN SEA TO CONWAY!

There are many reasons for the change but in a nutshell Conway offers a great runway not prone to washing out, no tower and it's not in Myrtle Beach's Class C airspace, no radio required, it's ultralight and light sport friendly as well as GA of course, has fuel on field, and it's closer to many more of our normal participants saving fuel for a lot of people!

There is usually a huge turnout so arrive early as the food usually does not last past 1 or 2 p.m.

Date: Nov 5, 2011

Time: 9:30 a.m. until

Place: Conway Airport

Come one - come all.

Ultralights, light-sport, homebuilts, GA, and all others are welcome as well as those that drive in. This great annual event is Saturday, November 5th so mark it on your calendar. We will start serving BBQ at 11:30 a.m. All proceeds go to support Conway's EAA Chapter 1167 and local aviation.

This is the 1st year that EAA Chapter 1167 will hold the Fly-in at Conway Airport (HYW). Gene Baker and John Matthews of Georgetown Airport will be preparing the BBQ as they have for the last two years.

Please Note: If driving in, it is located a couple miles west of Conway on Hwy 378.

See: <http://eaa1167.org> for more info.
